**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Response to Amendment***

This office action is in response to an amendment filed on August 14, 2007. The Examiner applies the same rejection as applied in the detailed office action mailed on April 11, 2007 as the last office action. The Applicant should refer to the last office action for details.

***Response to Arguments***

1. Applicant's arguments filed Aug. 14, 2007 have been fully considered but they are not persuasive. The drawings filed on Nov 17, 2003 are the only drawings found by the Examiner and are acceptable. No other formal drawings are found in record. Applicant must indicate what date is other set of formal drawings is filed.
2. With reference to Claim 1 Applicant argues that claim 1 specifically requires a programmable logic device that comprises a hardcoded microprocessor in communication with programmable logic. Examiner contends that Jacobson clearly shows in Fig. 2, a Diagnostic microcontroller within the same packaging as the programmable logic device and is called an electronic device. Jacobson further teaches (col. 3, lines 35-45) the diagnostic microcontroller 105 then initiates diagnostic tests on the programmable logic device 110. He also teaches (col. 3, lines 60-62) that the electronic device is a self-contained product. Therefore placing the microcontroller within the same packaging with the programmable logic device in the form of an integrated circuit is within the level of skill of a person of ordinary skill in the art if so desired. The technology today allows multiple processors and programmable logic devices within the same packaging as is well known in the art. Examiner applies the same response to the Applicants arguments pertains to claims 7, 13, & 20. Examiner has reviewed Jacobson's , col. 15, lines 41-47, as pointed out by the Applicant, Jacobson does not teach any desirability to

locate the microcontroller outside of the electronic device as alleged by the Applicant. In col. 15, lines 49-51, Jacobson teaches reconfiguring a programmable logic device within the electronic device to act as diagnostic microcontroller, thereby reasserting the desirability to include the microcontroller within the same package as the programmable logic device.

### ***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nadeem Iqbal whose telephone number is (571)-272-3659. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.
